

April 24, 1975

no relation to fact. They are talking about revenue sharing. They are talking about a Udall bill. A Udall bill is a federal bill which would directly involve the federal government. The Udall bill is a bill and whether or not it is going to pass has no affect on this legislation except it demonstrates the localities of this state are able to take care of their own problems. Therefore, I urge that you quickly, soundly reject the return motion by Senator DeCamp.

PRESIDENT: Senator Frank Lewis.

SENATOR F. LEWIS: Mr. Chairman, I would like to ask Senator DeCamp a couple of questions. He made a couple of strong statements there that I would like a little more background on. Exactly what authority are we giving the State Programming and Budgeting Office that is powers beyond the Governor. Would you answer that shortly, very briefly.

SENATOR DeCAMP: Sure I will answer it shortly, as shortly as it can be, and also give you a parallel in example. The State Office of Planning and Programming under this bill has the authority to review and make their judgment, their determination, and I assume it is one man there. He looks at what every little county or every little county and town and village in the state is doing and he determines, in his opinion, quote, if what they are doing is adequate. Now if you can believe this next thing that this bill gives them authority to do. If this one man, an unknown man at this point, since you don't know who is going to be in the office of Planning and Programming from day to day since it is not an elected office, if he determines that it is "not adequate", and I point out adequate in the bill is never defined in any place, if he determines it is inadequate by his judgment, the lawmaking authorities of municipalities, cities and villages and the whole area of land use planning is taken away literally. They have the authority to take that away.

SENATOR F. LEWIS: Now I will ask...

SENATOR DeCAMP: I was going to give you a parallel example.

SENATOR F. LEWIS: That is good enough for that.

SENATOR DeCAMP: Well, when I answer a question, I want to choose the answer rather than you.

SENATOR F. LEWIS: I have got all I want.

SENATOR DeCAMP: This would be as if this Legislature passed a bill.

SENATOR F. LEWIS: Cut him off.

SENATOR DeCAMP: We sent it..

SENATOR F. LEWIS: Now I will ask the next question, if you will answer it.
